Treaty of Terestai

August 2020

Ashelor - Yoahatl Agreement

Overview

The Kingdom of Ashelor has always had close but informal relations with the Empire of Yoahatl. In this treaty, the Kingdom of Ashelor endeavours to formalise and deepen said relations by becoming a non-autonomous territory of the Empire of Yoahatl.

Terms of Ascension

Article 1

The Kingdom of Ashelor shall become the Principality of Ashelor whereby it and its currently held territory shall join the Empire of Yoahatl and retain its existing governmental structures.

Article 2

The Kingdom of Ashelor shall cede the authority over military affairs and citizenship to the Empire of Yoahatl, but will retain its own player residency doctrines and rules and maintain the ability to enter into non-military diplomacy including trade and infrastructure relationships with foreign nations provided such relations do not directly interfere with Yoahatlan military affairs, subject to the limits of strict scrutiny within Yoahatlan courts against any Yoahatlan governmental interference; that by default, unless the Yoahatlan federal government can, on a case by case basis, prove it to be necessary to intervene, Ashelor shall retain its statal liberties as is standard of all non-autonomous territories.

Article 3

Bgbba, the Deputy Alcuahatl and creator of the Great Overland Rail, shall endeavour to prioritise eastward expansion of the rail towards and through the Kingdom of Ashelor when he is able.

Article 4

Citizens and trusted residents of the Kingdom of Ashelor will be allowed rights, privileges, freedoms, and liberties within New Yoahatl City afforded to all citizens of the Empire of Yoahatl including the right to access the city and freely participate in federal institutions.

Legal Consequences

The transition into a Principality under the sovereignty of the Empire of Yoahatl has implications to the Constitution and law of the Kingdom of Ashelor, and will now be referred to as the Principality of Ashelor.

Treaty of Terestai

The customs and precedent of the Principality of Ashelor dictate that Article 3 of the Treaty of Terestai be considered non-binding as it relates to personal promises of investment rather than issues of sovereignty or rights etc, thus is unenforceable.

Royal Prerogative

Article 2

The rights and sovereignty of the Monarch in regards to territory shall be suspended. While the Principality of Ashelor shall retain its borders if for no other reason than to determine primary jurisdiction, it shall however cede territorial sovereignty over to the Empire of Yoahatl.

Article 4

The Supreme Court of Ashelor shall continue to be the highest court within the Principality of Ashelor, but shall be inferior to the federal courts of the Empire of Yoahatl.

Article 5

The Principality of Ashelor has ceded military sovereignty to the Empire of Yoahatl. As such, the Monarch no longer has an absolute right to own all groups pertaining to state security.

Border Definitions, Prisoners' Property Regulation, The Regulation of Embassies, The National Treasury, The National Anthem, and The National Flag

All references to the Kingdom of Ashelor or its full sovereignty or nationhood shall be amended or removed to reflect the Principality of Ashelor's new status.

The Regulation of Pearls

It shall no longer be considered a crime to remove a pearl from the borders of the Principality of Ashelor providing that the pearl remains within the borders of the Empire of Yoahatl.

Endorsing Server Updates

This act shall be repealed since it is obsolete and references the Kingdom of Ashelor.
